DETAILED ACTION

Claim Objections

1. Claims 40-53 are objected to because of the following informalities:

Claim 40, line 3, delete "analyze a received" and insert -- receive and analyze -- .

Claim 40, line 7, delete "which are".

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 40 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ogawa, U.S. Pat. No. 6009267.

As per claim 40, Ogawa discloses a first software program operable to analyze a received measurement task specification specifying the measurement task (column 4, lines 18-42 and column 6, lines 12-37), a validation software program operable to validate the measurement task specification (column 4, lines 18-42 and column 6, lines 12-37) and (a plurality of experts which are operable to generate the measurement program specification for the measurement task (column 4, lines 18-42 and column 6, lines 12-37).
